Below is current info about Positive Deviance training to address nutrition problems in Garut District.

The training was conducted by Garut Health Office, which is part of the annual program to address malnutrition of underfive in Garut District.

Dates: April 1-14 (Sunday off)

The training is intended for health center staff, Community leaders and cadres.

However, to keep the spirit of networking within PD forum, Garut Health Office provides an opportunity for 10 forum participants who are interested to be involved in this training to learn about PD implementation process.

They realized that during the forum Activities in Bali on 19-21 January, many forum participants who are interested in knowing more about the training and implementation of PD.

In this training, participants can be involved directly in the implementation activities with the community. Implementation will be held in Selaawi and Wanaraja Sub district.
